

# Amir Hesam Khalouei

Senior Product Designer

 Tehran, Iran |  (+98) 938 262 52 11 |  hesam.khalouei8@gmail.com |  hesam\_khalouei

## Summary

Senior Product Designer with +7 years of experience designing complex B2B and B2C digital products across FinTech, SaaS, Logistics, and E-commerce. Specialized in simplifying complex workflows through research-driven design, process mining, and scalable design systems. Focused on transforming business goals and complex operational challenges into intuitive, measurable product experiences through cross-functional collaboration.

## Impact Highlights

- Increased UI consistency and design efficiency by 40% by building and scaling a company-wide design system at **ITSaaz**.
- Reduced friction across key product journeys by 12% through usability testing, UX research, and iterative design improvements.
- Reduced design-to-development handoff time by 30% by creating and maintaining a centralized design system at **EBCOM**.
- Improved seller onboarding by redesigning end-to-end journeys, reducing estimated onboarding drop-off by 15% at **Vardast**.

## Core Skills

**Product:** Product Strategy, Product Discovery, UX Research, Usability Testing, A/B Testing, Information Architecture, Journey Mapping

**Design:** Design Systems, User Flows, Design Thinking, Interaction Design, Wireframing, Prototyping, Responsive Design, Accessibility (WCAG), Data-informed Design

**Leadership:** Stakeholder Management, Cross-functional Collaboration, Design Leadership, Design Sprint Facilitation, Mentoring

**Tools:** Figma, Maze, Miro, Notion, Jira, ClickUp, Webflow, Zeplin, Mockup Studio

## Key Achievements

- Built and scaled 2 company-wide design systems.
- Led redesign initiatives across FinTech, Logistics, SaaS, and Marketplace products.
- Improved product efficiency by up to 40% through design systems and workflow optimization.
- Collaborated with Engineering, Product, Operations, and Executive stakeholders to drive measurable business outcomes.
- Designed products used across FinTech, Logistics, Marketplace, SaaS, Government Services, and Travel domains.

## Experiences

### Senior Product Designer - EBCOM

May 2025 - Present

Tehran, Iran (On-site)

- Redesigned the company's core platform by applying process mining techniques to operational workflows, improving task completion efficiency by approximately 25%.
- Reduced design-to-development handoff time by around 30% by building and maintaining a scalable company-wide design system while improving consistency across 5+ products.
- Partner closely with Product Managers, Engineers, and Operations leaders to prioritize roadmap initiatives aligned with measurable business outcomes.

### Senior Product Designer - Postex

Oct 2024 - Apr 2025

Tehran, Iran (On-site)

- Led the redesign of Postex's core web platform and internal operations dashboard, applying process mining to optimize logistics workflows and reduce dispatch task time by approximately 20%.
- Worked closely with Engineering and Operations teams to improve routing experiences and operational efficiency across logistics products.
- Facilitated stakeholder alignment throughout the product lifecycle, minimizing rework through early discovery and requirement validation.

### Product Design Lead - Vardast

Apr 2023 - Aug 2024

Tehran, Iran (On-site)

- Conducted regular stakeholder interviews with business and sales teams to define product opportunities and prioritize roadmap initiatives.
- Redesigned seller onboarding and product listing journeys, reducing estimated onboarding drop-off by approximately 15%.
- Designed scalable marketplace UI components that accelerated feature delivery while maintaining design consistency across the platform.

### Product Designer - ITSaaz

Nov 2021 - Mar 2023

Tehran, Iran (On-site)

- Built and scaled the company's first design system, improving UI consistency and increasing design efficiency by 40%.
- Conducted usability testing and UX research that reduced friction across critical user flows by 12%.
- Partnered with Product Managers and Engineers across multiple concurrent initiatives, ensuring alignment between business objectives and user needs.

### UI/UX Designer - Standard

Oct 2019 - Oct 2021

Tehran, Iran (On-site)

- Designed responsive web applications and dashboards from discovery through high-fidelity prototypes.
- Collaborated with Product Managers and Developers to validate design decisions through iterative feedback and usability testing.

### UI/UX Designer - Freelance

Jul 2017 - Sep 2019

Tehran, Iran (Remote)

- Delivered end-to-end UI/UX solutions for startups and small businesses across multiple industries.
- Established a strong foundation in research-driven product design by leading discovery, wireframing, prototyping, and client presentations.

## Selected Projects

- Ewano** - Digital Banking and financial platform
- Day Dar** - Insurance platform
- MCI World Cup 2026** - Match prediction platform
- Postex** - Logistics & Shipment Management Platform
- HudHudTrip** - Online travel booking platform
- Conference2go** - Academic conference discovery platform
- Net Pos** - Store cash register platform
- SSO** - Single sign-on authentication platform
- Kayak** - Travel metasearch platform
- Vardast** - B2B & B2C Construction Marketplace platform
- Ronaq** - System monitoring and project management platform
- Icate** - International academic conference platform
- IT Pishkhan** - Service portal for government service offices platform

## Certification

Google UI/UX Design - Google May 2020 - Nov 2020

User Research Course - Coursera Dec 2020

UI/UX Design Specialist - 7Learn Dec 2017 - Jun 2018

Product Manager - University of Sharif Feb 2022 - Jul 2023

## Languages

English - Intermediate

## Education

Zanjan University - B.Sc. in Water Engineering 2011 - 2015
